

Specially designed for drying and dry storage of welding powders. Ovens are thermostatically controlled with a temperature range from 50°C to 300°C.

The use of a special and durable heater allows less watt-density or less power consumption per unit inside space as well as high thermal efficiency, thus helping to reduce electric bill in drying.

- ✓ **Built-in temperature regulator permits free temperature setting up to 300°C.**
- ✓ **Manually adjustable thermostat ensures inside temperature maintenance and regulation.**
- ✓ **Pre-eminent in keeping temperature due to double wall and high quality special insulation materials.**

PRODUCTCODE: 312.FO-150

Capacity	150 Kg
Voltage	AC 220V
Average stabilized temperature	50 - 300 °C
Thermostat	Adjustable thermostat
Exterior dimensions	600 x 700 x 1115 mm
Net weight	85 kg
