

# CS-S1 Linear Weaving Welder

- It is a butt & fillet welder for circumference, and the column & boom, and the rotator are needed additionally.
- It makes linear movement, and the leg length of high quality as much as you want can be acquired.
- It drives at a constant speed with the minimized gear backlash. Thus the high welding quality and the long life span of the welder is acquired.

DIVISION		CS-S1 WEAVER		Remark
General	Input power	AC100V~240V 50/60Hz		
	DC Input power (Option)	AC48V	DC 18-72V(OPTION)	
	Dimensions	420(W) X 241(L) X232(H)		
	Weight	3.8Kg		
Torch	Left / Right Distance	0~120mm		
	Up / Down Distanc	0~70mm		
	Running Angle	±5 °		
Weaver	Weaving Motor	DC24V, 12W, 5000 RPM		BLDC MOTOR
	Readucer	1000 : 1		
	Weaving Width	0~50mm / ±5%		
	Weaving Speed	26Times / min		
	Left / Right Stop	0.0~9.9(sec)		
	Center Shit	50.8mm
