

MIG 200

MIG, MMA, TIG (lift-arc) | Digital control system | Lightweight | IGBT

317.MIG-200

- Digital control system, real-time display the welding parameters.
- High-performance multifunction power source (MIG/MAG)
- Waveform control, stable welding arc
- IGBT technology, low-power dissipation

MIG 200 has automatic protection functions with intelligent to over- voltage, over-current and over-heat.If any of the above problems happens, the alarm lamp on the front panel will be lighted and output current will be shut off automatically to protect itself and prolong the equipment using life.

MIG 200 arc welding machine is suitable for all positions welding for various plates made of stainless steel, carbon steel, alloyed steel etc

EXPERIENCE THE CONVENIENCE OF EVERYTHING UNDER ONE ROOF

At Lascentrum, you can find everything you need regarding products for welding and safety. Lascentrum has been established in 1988 and now imports a complete range of welding consumables, gouging electrodes, gas welding & cutting equipment, welding blankets, safety products and accessories.
