DESCRIPTION

The Navishock S4 helmet combines an EN 397 approved safety helmet, a large clear grinding undervisor, a flip-up front equipped with an S4 True Colors automatic cell and Side Visions. The Navishock helmet is suspended by a headband with 6 attachment points. With its adjustable welding shade from DIN 9 to 13, and its optical classes 1/1/1/2, the Navishock S4 helmet can be used for all welding processes. Noise-cancelling earmuffs available as an option. Combined with the Airkem P filtration unit, the Navishock S4 hood ensures filtration of Solid and Liquid Particles (PSL), with inward leakage classified as TH3. The Airkem has a digital display, 4 air flow rates, a filter clogging alarm and a low battery alarm. Operating on a Lithium-Ion battery, the Navishock S4 Airkem P provides 9-10 hours of operating time. Bag included.

TECHNICAL FEATURES
