

NIES HKK 600

Magnetic current coupling with permanent magnet for current loads of 600 A

Type Hkk 600

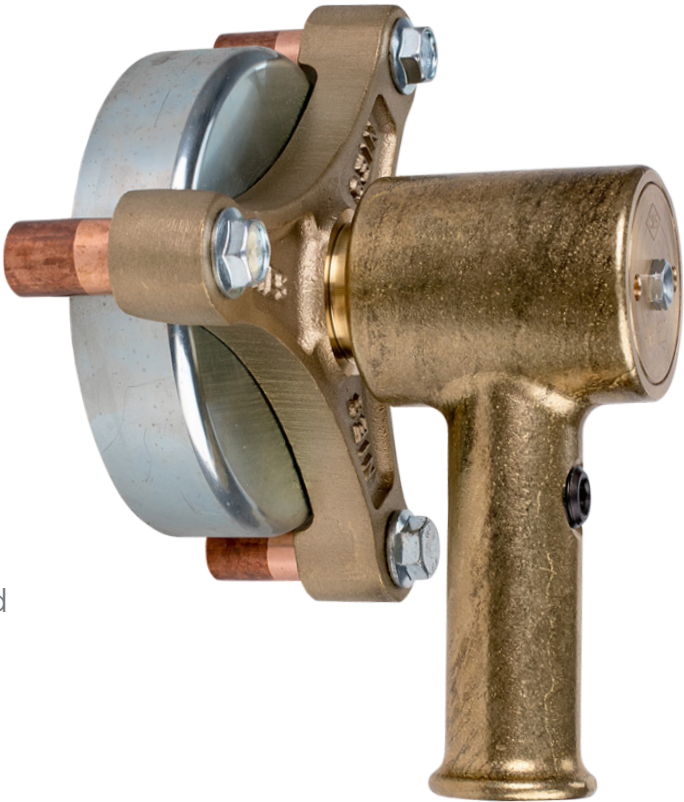

Magnetic current coupling for current loads of 600 A

The magnetic current coupling HKK 600 has been proving its reliability as an earth coupling in tank and construction for many years.

This is a handy, compact, rotating current transmission element, with magnetic clamping device for straight and dished tank heads up a maximum diameter of 2000mm and with a minimum radius of curvature of 500mm.

Spring and magnet insulation are well protected inside the device.

Three spring loaded, electrode-grade copper contacts provide good contact with the workpiece.

- **Quick and easy fit**
- **Powerful magnet ensures reliable contact**
- **Insulated magnet prevents scorching**
- **Rugged construction**
- **Handle connection with bending guard and clamped connection protects cable**
- **Relubrication ensures long service life.**

Only use special grease P 34 for relubrication.
A manual grease gun filled with special grease P 34 and lubrication instructions are supplied.
Special grease P 34 is available in 0.5 kg tins.

Article code	Description	Magnet	Cable cross- section	Weight
332.230000	Nies magnetic current coupling 600 HKK	125 mm	70 - 120 mm²	4.7 kg

EXPERIENCE THE CONVENIENCE OF EVERYTHING UNDER ONE ROOF

At Lascentrum, you can find everything you need regarding products for welding and safety. Lascentrum has been established in 1988 and now imports a complete range of welding consumables, gouging electrodes, gas welding & cutting equipment, welding blankets, safety products and accessories.
